

# ROTARY SCREW AIR COMPRESSORS

**HONOR | COURAGE | COMMITMENT**

[www.hodgecompressor.com](http://www.hodgecompressor.com)

# BELT DRIVE AIR COMPRESSOR

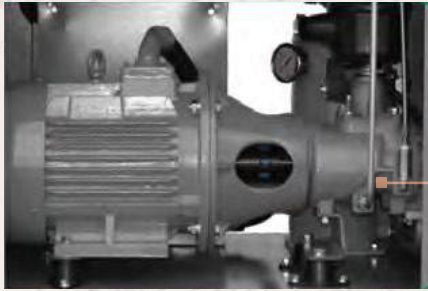

## MAIN FEATURES

- IP54/F insulation level motor
- High precision filter element
- State of the art control system with features such as remind, record, remove, and monitor
- Enhanced safety and protection capabilities
- Withstands harsh weather conditions
- Low vibration and low noise

Model	Pressure PSI	Capacity CFM	Motor Power HP	Weight lbs.	Dimensions Inches
HB7	125	25	7.5	331	30x24x31
HB10	125	36	10	430	31x28x37
HB15	125	62	15	644	43x30x39
HB20	125	72	20	686	43x30x39
HB25	125	98	25	926	43x33x47
HB30	125	118	30	977	43x33x47
HB45	125	164	45	1146	47x39x59
HB50	125	203	50	1442	47x39x59
HB60	125	251	60	1587	59x39x52

## MOTOR

- Fixed speed motor ensures consistent operation.
- Totally Enclosed Fan Cooled (TEFC) design protects against environmental factors.
- Sealed enclosure reduces maintenance needs.
- Efficient cooling system ensures quiet and reliable operation

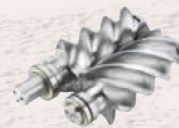

## DIGITAL CONTROLLER

- Multiple run modes available.
- 7-inch color screen with button and touch panel.
- Real-time and cumulative power consumption monitoring, with optional scheduled on/off and pressure functions.
- Comprehensive motor protection features including open phase, overload, unbalance, high and low voltage protection, ensuring high reliability and cost-effectiveness.

## COOLER

- Thermally Controlled Fan optimized for high ambient temperatures, ensuring efficient cooling in demanding environments.
- Enhanced cooling capabilities with an oversized cooler, maintaining optimal temperatures for peak performance.
- Built to withstand rugged conditions, ensuring long-term reliability and operational efficiency.
- Streamlined design facilitates simple maintenance procedures, minimizing downtime and maximizing productivity.

## AIREND

- Engineered for peak efficiency and durability.
- Maintain consistent performance with precision machine bell housing.
- Designed for quiet operation, minimizing noise pollution in the workspace.
- Extended lifespan with a large, slow-running airend that increases bearing life for long-term reliability.

# WORLD CLASS MANUFACTURING

## FOREVER WARRANTY

At Hodge Compressor, our rotary screw air compressors represent more than engineering excellence; they echo our core values of honor, courage, and commitment.

With our “FOREVER Warranty,” we’re bravely setting a new standard in the industry. While many offer limited (lifetime) warranties, Hodge Compressor ensures both PARTS and LABOR for the life of your compressor. When we say “FOREVER,” it’s a testament to our unwavering commitment to you. With Hodge Compressor, you’re not just buying a product but investing in a promise grounded in integrity and dedication.

## ARTIFICIAL INTELLIGENCE

At Hodge Compressor, we engineer top-notch rotary screw air compressors and transform their management with Visionair™, our cutting-edge machine-learning software. Integrated with your compressor’s controller, it monitors sensors and sends data to our Command Center. Visionair™ analyzes data and provides tailored recommendations for optimized efficiency, reduced energy costs, and predictive maintenance.

With HodgeVisionair™, you invest in advanced software to enhance reliability, prolong equipment life, and promote sustainability.

## CULTURE

Rooted deeply in our values and traditions, our culture drives every product we manufacture. It’s a commitment to excellence that goes beyond machinery, encompassing the passion of our people, the dedication to innovation, and the unwavering belief in delivering nothing but the best.

Every Hodge Compressor unit is not merely a piece of equipment; it’s a manifestation of a team united by shared values, working tirelessly to ensure superior performance. When you choose Hodge, you’re not just investing in an exceptional compressor — you’re becoming a part of a rich legacy defined by excellence and driven by culture.

**HODGE COMPRESSORS ARE BUILT WITH CAREFULLY ENGINEERED PARTS SOURCED FROM TOP MANUFACTURERS AROUND THE WORLD. THE STUNNING AND RELIABLE MACHINES ARE CAREFULLY CRAFTED TO RUN SMOOTHLY AND EFFICIENTLY ACROSS NUMEROUS INDUSTRIES WORLDWIDE.**

Hodge compressors have the ability to adapt to the needs of various businesses insuring significant cost savings and a measurable reduction in a business's carbon footprint.

# INDUSTRIES

## MANUFACTURING

Hodge air compressors are engineered to provide success in the manufacturing industries. Hodge compressors have been rigorously tested to handle light, medium, and heavy manufacturing needs. Hodge Some of the industries that are great for Hodge air compressors include equipment manufacturing, steel production, refineries, etc.

## AUTOMOTIVE

Automotive manufacturers and automotive repair/service shops particular enjoy having Hodge compressors because of their reliability and Forever Warranty Guarantee. It is a headache free brand that easily assists the day to day work at automotive shops including painting, powering tools, lifting equipment, etc.

## AEROSPACE

The Aerospace industry needs reliable and efficient rotary screw compressors that guarantee the best results. Hodge rotary screw compressors are built to handle high demands for long periods of time and that's exactly what the Aerospace industry is looking for. Tough and reliable air compressors.

## AGRICULTURE

The Agriculture industry is required to be very fast-paced in order to keep everything fresh. This type of application needs powerful and reliable air compressors that can get the job done. Hodge compressors go above and beyond by not only providing on of the best machines in the industry but also minimizing cost to increase profits.

## FOOD & BEVERAGE

Food & Beverage is one of the fastest growing industry in the USA. It is a high-demanding industry and needs equipment that can keep up with its growing demands. Hodge air compressors provide exactly that. Built for the future-this technology designed ahead of its time will last you a lifetime with an unmatched reliability.

---

## DRY CLEANING

There couldn't be a better air compressor than the Hodge compressor for the dry cleaning industry. With numerous choices to help you find the perfect fit for your business, Hodge also offers the most competitive pricing for their air compressor package. This is a deal the dry cleaning industry won't be able to refuse.

---

## CHEMICAL & PETROCHEMICAL

The Chemical & Petrochemical industries can prove to be quite hazardous environments therefore it's best to choose a system that is known for their safety alongside with reliability and efficiency. Hodge air compressors are one of the safest pieces of equipment compared to competitor brands.

---

## GLASS INDUSTRY

No matter what type of air compressor is required for the Glass industry, Hodge has it and you won't be able to find the quality and price that a Hodge can offer you. Our air compressors provide top the line quality of air with unmatched efficiency.

---

## CONSTRUCTION INDUSTRY

Working long hours in a noisy industry? The last thing the construction industry needs is another noisy unreliable piece of equipment. Hodge is known for its reliability and our equipment is designed while keeping all factors in mind including noise pollution.
