

DRYER

The Hodge Dryer is specifically engineered to efficiently remove water vapor and moisture from industrial process air, ensuring clean, dry air for your operations. Designed with a compact footprint, it fits seamlessly into tight spaces without sacrificing performance. Its whisper-quiet operation makes it ideal for environments where noise reduction is a priority, providing powerful moisture control without the disruptive sound of traditional dryers. Reliable, efficient, and space-saving, the Hodge Dryer is the perfect solution for industries that demand high-quality air treatment.

MODEL	CAPACITY	POWER	CONNECTION	DIMENSIONS (IN.)			WEIGHT
	CFM	V/Hz		WIDTH	LENGTH	HEIGHT	Lbs
